

FOR IMMEDIATE RELEASE

**Royal Window and Door adds new member to
Concerto Eco-Window™ Banner**

Woodbridge, Ontario, March 17, 2010-- Royal Window and Door Profiles, a division of Royal Group, Inc., is pleased to announce the addition of Extreme Window and Entrance Systems to the Concerto Eco-Window™ Program. Extreme Window and Entrance Systems, located in Moncton, will assemble, promote and sell the Concerto Eco-Window™ systems through their extensive network located in all Atlantic provinces. Extreme has close to 50 distributors under the Extreme and Solarseal banners.

Concerto Eco-Window™ systems achieve the highest energy savings rating in the industry, making them ideal for use in the construction of ENERGY STAR® qualified fenestration products. Advanced testing has also shown that Concerto systems remain as airtight at -30°C as they are at room temperature.

A spring advertising campaign including radio and TV spots in main stations was introduced at the ABSDA Show on February 25th and 26th in Moncton to support the launch of the Concerto Eco-Window™ program.

The addition of Extreme is part of Royal Group Inc.'s Window and Door Division's strategy to increase the access to our Concerto Eco-Windows™ in the Maritimes.

Concerto The Eco-Window™. High energy-efficient systems, tested at -30°C, for comfort, security and a greener community.

Extreme Window and Entrance Systems has been a customer of Royal Group Inc.'s Window and Door Division since 2005.
