Our siding is engineered to be all things to all homeowners.

CURB APPEAL
Aesthetics take form in a diverse selection of profiles, colors, textures and accessories that match a full range of architectural styles. Our innovative Chromatix™ technology color protection—featured in our siding with darker shades—helps color retain its vibrant curb appeal day after day.

DURABILITY
Strong, fade resistant and resilient, our siding is built to remain beautiful for the life of your home. Plus, many of our siding lines are surprisingly green, rivaling cedar in overall sustainability.

LOW MAINTENANCE
Our siding is engineered for endless admiration, and has little need for the persistent upkeep characteristic of wood.

VALUE
This is what it means to distinguish your home for life without compromising your aesthetics or stretching your budget.

PEACE OF MIND
Every one of our siding products carries a great warranty, and helps provide strong resale value.
When it comes to how your siding presents itself, color is crucial. So we pay a lot of attention to what’s trending and what works. Choosing your own colors can be fun, but a bit overwhelming. If you need a nudge, get ideas and tips from our color combining tool at RoyalBuildingProducts.com/ExteriorPortfolioColorCombos.

Using Chromatix™ technology to optimize your pigments and protect your investment.

We develop our colors to keep their eye candy promises when they’re new, and way down the road. So we fashioned our siding pigments to deliver vibrant curb appeal, resist fade and fend off elements day after day.

Our proprietary Chromatix™ technology color protection features two new reflecting pigments to reduce heat buildup. We added a UV formulation with mineral-based pigments to keep siding colors from fading. Sound a bit scientific? It should, because we understand the importance of effortlessly maintaining the look you create in a challenging outdoor environment. And, we back it up with an industry-leading Double Lifetime Warranty. What you get is rich, true color that raises the curb appeal of our darker siding shades.

• Featured in Smart Styles™ Premium and Smart Styles™ Expressions shades
• Proprietary infrared-reflecting pigments reduce heat buildup
• Warranted to fade less so dark colors stay true

Home is fully expressed when you discover the right color.
