Express your outer feelings. Start with the right colour.

When it comes to how your siding presents itself, colour is crucial. So we pay attention to what's trending and what works. Choosing your own colours can be fun, but a bit overwhelming. If you need a nudge, get ideas and tips from our colour combination tool at RoyalBuildingProducts.com/RoyalColorCombos.

Combine shades to amp up your curb appeal.

We develop our colours to keep their eye candy promises, no matter which ones you choose. How you organize and mix those colours can have a tremendous effect on the curb appeal of your Residential Siding.

Looking to add depth to a lighter featured colour? Complement it with a deeper blue or tan in the porch area. Also, play with darker shades in windows and trim to add a flash of personality. If you're using a deeper shade in the main area of your exterior, add a more neutral colour in the gables to bring the natural world into the colour scheme.

Actual siding colour may vary slightly from printed brochure.

We'll get you to your "wow" place.

Achieving the exterior that expresses your home the way you want it takes time, thought and the right combination of siding, trim, accents, colour and dimension. But the experience doesn't have to be painstaking or frustrating.

We're here to make exterior home design exciting—whether you're searching for a complementary fusion of styles and textures or the homerun palette that takes your home to the next level. In addition to our products, we offer inspiration through LiveAbode™, our online design magazine. It will fuel you all year long with trending ideas, tips and thoughts on everything from maximizing landscaping space to upcycling lighting fixtures.
