Virtually seamless. Thoroughly awesome.
The one premium siding that pleases every pro.

Installers and contractors appreciate Celect® Cellular Exteriors by Royal® for its ease of installation and superior weatherability. Architects specify Celect for its seamless, talk-of-the-neighborhood aesthetics, low maintenance and fade-resistant coating. In other words: Now there is a premium siding that is all things to all building pros.

Celect is perfect behind the scenes
- Patented interlocking joints* make seams virtually disappear—and make Celect easier on the eyes and faster to install than fiber cement
- Keeps boards straight and aesthetically stunning through the home’s natural expansion and contraction—which means it doesn’t degrade like wood and fiber cement
- Eliminates caulking and energy loss
- No more gaps or wavy lines
- Gravity lock design wipes out warping, buckling and shifting while boosting wind resistance to more than 200 mph

Gorgeous on its own. Plays well with others.
- Complements all architectural styles and designs
- Premium siding options: 7” Clapboard, Board & Batten and 7” Shake
- Rich, deep palette of 15 factory-applied, designer-inspired colors
- Full line of matching accessories—including mounts and blocks crafted from the same state-of-the-art cellular materials as our premium siding

The natural, beautiful looks of real cedar without the ugly maintenance
- Coating withstands all kinds of weather conditions and climates
- Fade-resistant colors backed by a 25-year color-protection warranty
- No painting, repainting, caulking, re-caulking or delamination—unlike fiber cement
- Resists chipping, cracking, chalking, flaking and decay
- Withstands impact even under the harshest weather conditions
- Cleans up with spray from a garden hose
- Repels mold, mildew, dirt, debris and insects
- Lifetime Limited Warranty

Recyclable and sustainable perfection
- Panels and packaging are 100% recyclable
- Coating provides superior UV resistance and reflects energy back into the atmosphere—reducing the energy demands of heating and air conditioning
- Manufacturing and installation emit low VOCs
- Each panel cuts cleanly, with no harmful residue or dust

Every option is a model of superior form and function.

Seriously green
- Insulates 70% better than wood
- Has almost twice the R-value of fiber cement and wood

Even the small details come up big: trim and moulding
- Crafted from the same state-of-the-art cellular materials as our siding
- Low-maintenance trim package assures easy installation
- Coated corner, trim and moulding options are finished in matching and complementary siding colors
- Zero rot or replacement issues
- Trimboards can be bent and customized

The natural, beautiful looks of real cedar without the ugly maintenance
