# Express your outer feelings. Start with the right color.

When it comes to how your siding presents itself, color is crucial. So we pay a lot of attention to what's trending and what works. Choosing your own colors can be fun, but a bit overwhelming. If you need a nudge, get ideas and tips from our color combination tool at [RoyalBuildingProducts.com/RoyalColorCombos](http://RoyalBuildingProducts.com/RoyalColorCombos).

## Chromatix™ technology: Imagine sunblock for your siding.

We develop our colors to keep their eye candy promises when they're fresh, and way down the road. So we fashioned our siding pigments to deliver vibrant curb appeal, resist fade and fend off elements day after day.

Our proprietary Chromatix™ technology color protection features infrared-reflecting pigments to reduce heat buildup. We added a UV formulation with mineral-based pigments to keep siding colors from fading. Sound a bit scientific? It should, because we understand the importance of effortlessly maintaining the look you create in a challenging outdoor environment. And, we back it up with an industry-leading Double Lifetime Warranty. What you get is rich, true color that raises the curb appeal of our siding with Premium and Dark shades.

- Featured in Premium and Dark Colorsapes® shades
- Proprietary infrared-reflecting pigments reduce heat buildup
- Warranted to fade less so dark colors stay true
